# FAQs for Patients

## 1. How do you know if my child(ren) are eligible for CDBS?

A child's eligibility for CDBS is assessed at the beginning of each year and lasts the whole calendar year. A child will be eligible if they are aged 2-17 years and are either part of a family receiving Family Tax Benefit – Part A or receive certain Australian Government Payments.

## 2. When is eligibility determined ?

Eligibility is determined each calendar year.

## 3. How will I be notified?

Families or teenagers will be notified of eligibility by letter, starting in early 2014.

## 4. What entitlements will my child receive under CDBS?

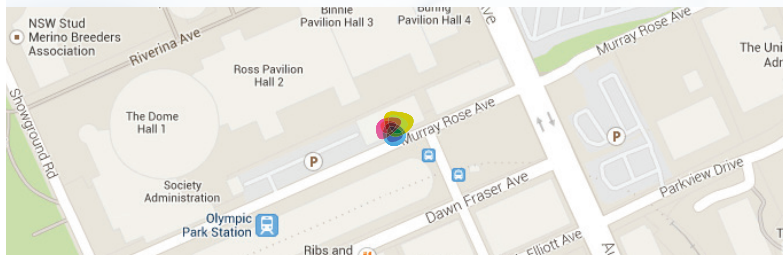

Eligible children & teenagers will have access to benefits for basic dental services capped at \$1000 over two calendar years. Basic dental services include check-ups, x-ray, fillings, root canal & extractions. Other dental services such as orthodontics & cosmetic procedures are not covered.

## 5. If I don't use all the \$1000 in first year of eligibility, can I access it in the second year?

If you are found eligible for the second year, then you will be able to utilise any remaining balance.

## 6. How often can I access CDBS services? (or Is my child entitled to multiple services in a calendar year)

You can access CDBS as many times as necessary throughout the calendar year (up to \$1000). However, some services have restrictions on how many times or when they can be provided. Your dentist will be able to advise you on the services required for your treatment.
